DETAILED ACTION

Drawings

1. The drawings were received on 01 June 2006. These drawings are acceptable.

Allowable Subject Matter

2. Claims 1-6 are allowed.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

Claim 1 and its dependent claims are found to be allowable because the prior art of record neither teaches nor reasonably suggests the recitations found therein, including the specific twist/braid configuration as claimed and taught. Applicant's structure as claimed, through understanding of the specification is of a braided structure, having laid up strands of laid up substrands. The prior art of record specifically requires the strands to be braided, not laid up. This changes the substructure of the rope, and its inherent tensile strength since it changes the axial components of strength from a helix to a maypole variant. Likewise as understood by Examiner, Applicant requires a splice in at least every single primary strand without question, without exception.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
